## 2010 ASAGA Conference Homelessness Issues for Incapacitated Adults Schedule of Events

 ASAGA is pleased to have Andrew Sperling of the National Alliance on Mental Illness (NAMI) from Washington DC as our featured speaker. **Mr. Sperling will provide valuable insight on efforts to assist the homeless on a national scale.** Andrew Sperling is the Director of Federal Legislative Advocacy for NAMI and works on issues affecting the mental health community with a focus on improving the lives of people with severe mental illnesses. Since 1994, Mr. Sperling has served as Co-Chair of the Consortium for Citizens with

 Disabilities (CCD) Housing Task Force.  The second half of the conference will focus on homelessness locally. A panel of local experts on housing issues for persons with cognitive disabilities will be present to discuss the work they are engaged in and what they hope to accomplish in the future. At the conclusion of the panel discussion there will an opportunity for questions from the audience and panel response to these questions.

 Our goals for this conference are to identify programs that are working and come up with possible solutions that will work for incapacitated adults in our community.
